Such objecting Party shall have the right to protest, by appropriate proceedings, the imposition or assessment of any such taxes and shall be responsible for such payments that are ultimately required and shall indemnify and hold the other Party harmless from any expense, legal action, or cost resulting from the exercise of its rights pursuant to this article. Neither Party shall be obliged to establish a credit note for the supply of a Carrier Service for which the other Party could not collect the corresponding amount with its end user (e.g. in the event of insolvency or fraud) regardless of whether or not the fraudulent usage or unauthorized calling was reported by a Party to the other Party.

In the event of an invoice dispute which cannot be settled amicably before that invoice's due date, the debtor Party must in any event settle before the due date all amounts which are not in dispute

The Parties agree that no dispute shall be raised if the amount in dispute is less than one percent (1%) of the corresponding invoice's total amount and less than a thousand euros (1000€) (both thresholds should apply).

16.2. The Parties to the Agreement are independent contractors. Neither the performance by the Parties of their duties and obligations under this Agreement nor anything herein shall create or imply an agency relationship between the Parties, nor shall this Agreement be deemed to constitute a joint venture or partnership between the Parties.

other advantage of any kind (or implied that they will or might do any such thing at any time in the future) in any way connected with the Agreement and that it has taken reasonable measures to prevent subcontractors, agents or any other third parties, subject to its control or determining influence, from doing so.

18.2. The Parties agree that, at all times in connection with and throughout the course of the Agreement and thereafter, they will comply with and that they will take reasonable measures to ensure that their subcontractors, agents or other third parties, subject to their control or determining influence, will comply with the following provisions:

18.2.1. Parties will prohibit the following practices at all times and in any form, in relation with a public official at the international, national or local level, a political party, party official or candidate to political office, and a director, officer or employee of a Party, whether these practices are engaged in directly or indirectly, including through third parties:

a) Bribery is the offering, promising, giving, authorizing or accepting of any undue pecuniary or other advantage to, by or for any of the persons listed above or for anyone else in order to obtain or retain a business or other improper advantage, e.g. in connection with public or private procurement contract awards, regulatory permits, taxation, customs, judicial and legislative proceedings.

18.3. If a Party, as a result of the exercise of a contractually-provided audit right, if any, of the other Party’s accounting books and financial records, or otherwise, brings evidence that the latter Party has been engaging in material or several repeated breaches of Paragraphs 18.1 and 18.2 above, it will notify the latter Party accordingly and require such Party to take the necessary remedial action in a reasonable time and to inform it about such action. If the latter Party fails to take the necessary remedial action or if such remedial action is not possible, it may invoke a defence by proving that by the time the evidence of breach(es) had arisen, it had put into place adequate anti-corruption preventive measures, as described in Article 10 of the ICC Rules on Combating Corruption 2011, adapted to its particular circumstances and capable of detecting corruption and of promoting a culture of integrity in its organization. If no remedial action is taken or, as the case may be, the defence is not effectively invoked, the first Party may, at its discretion, either suspend or terminate the Agreement, it being understood that all amounts contractually due at the time of suspension or termination of the Agreement will remain payable, as far as permitted by applicable law.

electronic communications sector as may be amended from time to time);

- “Schedule” shall mean a schedule to this Appendix 1, which shall form an integral part of this DPA; and
- The terms used in this DPA shall have their meanings given in the Applicable Data Protection Law.

2. Processing of personal data

2.1 The provisions of this DPA shall apply to the extent a Party would process, on behalf of the other, any personal data provided by that other Party or its Affiliates, directly or indirectly, in connection with the Agreement as described in the Data Processing Schedule attached to this DPA (the “Data”). With regard to the processing of such Data, the Party processing the Data on behalf of the other will act as processor (the “Processor”) and the Party on which behalf the Data is processed will act as controller (the “Controller”). Data may include personal data relating to (a) end-users of a Party’s or its Affiliates’ customers and/or (b) individuals who are employed by or have a working relationship with a Party or its Affiliate. Processing may include processing by a Party or any of its Affiliates.

2.2 Each Party shall fully comply with the obligations that apply to it under the Applicable Data Protection Law. It is expressly agreed upon between the Parties that the Data shall remain at all times the Controller’s property.

2.3 In its capacity as Processor, a Party shall:

(a) Treat the Data as Confidential Information and process the Data solely and exclusively for the purpose of providing Services to the Controller and on Controller’s behalf. The processing by the Processor shall consist of all permitted processing operations as stipulated in the Data Processing Schedule or in the Agreement. The categories of personal data to be processed by the Processor will be limited to the Data that are necessary to deliver the Services to the Controller. The duration of the processing by the Processor is limited to the duration described in the Agreement or the Data Processing Schedule.

(b) The Processor shall provide at all times during the performance of this DPA sufficient guarantees for its compliance with the requirements of the Applicable Data Protection Law. The Processor shall not process any Data

for purposes other than that which is strictly necessary for the performance of its obligations under the Agreement, and shall only process the Data strictly in accordance with the Controller's documented instructions (the "Permitted Purpose") given in this DPA, the Agreement or by any other means during the performance of this DPA. If the Processor would be required by any applicable legislation to process any Data otherwise than as permitted herein, the Processor shall inform the Controller of that legal requirement before processing, unless that law prohibits such information on important grounds of public interest. The Processor shall immediately inform the Controller if, in its opinion, an instruction infringes the Applicable Data Protection Law and shall provide details of the breach or potential breach.

(c) Implement appropriate and sufficient, technical and organisational security measures prior to and during processing of any Data to protect the security, confidentiality and integrity of the Data and to protect the Data against any form of accidental, unlawful or unauthorized processing. In particular, without limitation, the Processor shall protect the Data against accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, use or access to Data transmitted, stored or otherwise processed and against any form of unlawful processing. The Processor shall ensure a level of security appropriate to the risks presented by the processing of Data and the nature of such Data. Such measures shall include, as appropriate:

- The ability to ensure the ongoing confidentiality, integrity, availability and resilience of processing systems and services;
- The ability to restore the availability and access to the Data in timely manner in the event of a physical or technical incident;
- A process for regularly testing, assessing and evaluating the effectiveness of technical and organisational measures for ensuring the security of the processing.

At a minimum, such measures shall include the organizational and technical measures, which meet or exceed relevant industry practice. These measures shall remain in place throughout the duration that Processor provides Services to the Controller or until Processor ceases to process Data (whichever is later);

(d) Treat Data with strict confidence and take all appropriate steps to ensure that disclosure of or access to Data is restricted to its employees, consultants or agents that strictly require such Data to perform the tasks allotted to them by the Processor in the performance of the Processor's obligations under the Agreement (the "Authorized Persons") and excluding all access to Data which are not strictly necessary for the Authorized Persons to perform its part of the Services. The Processor shall ensure that the Authorized Persons who will process Data:

- Are aware of and shall comply with the provisions of this DPA;
- Are under a duty of confidentiality with respect to the Data no less restrictive than the duties set forth herein prior to any access to the Data. Processor shall ensure that such confidentiality obligations survive the termination of the employment or contracting agreement;
- Have received appropriate training in relation to the Applicable Data Protection Law;
- Are subject to user authentication and log-on processes when accessing the Data; and
- Shall only process the Data as necessary for the Permitted Purpose and in accordance with the Controller's instructions.

(e) Not engage any subcontractor for the processing of Data without the Controller's prior written specific or general written authorisation approval (the "Approved Sub-processor"), to be provided in Controller's sole discretion but not to be unreasonably withheld. In the frame of the Parties' relationship as of the date of this Agreement, each Party allows the other to be assisted by subcontractors strictly with a view to deliver and improve the agreed Services, provided said Party has contracted with said subcontractors with terms substantially similar to the ones included herein. When the use of subcontractors does not fall within the scope present general authorization, the Processor shall inform the Controller at least one month in advance and by means of a written communication about its intention to engage a subcontractor, including details on the identity of the subcontractor, the location where the Data will be processed by such subcontractor and the concerned data processing activities.
