

# BICS Managed Roaming Services

## Turn the evolving roaming ecosystem into a competitive advantage

BICS Managed Roaming Services helps operators accelerate service launches, optimize roaming quality, strengthen commercial performance, and improve financial control through a single end-to-end managed service.

### The growing complexity of roaming

#### Pressure to rapidly launch new services and technologies

Staying ahead requires faster onboarding, testing and deployment of 4G, 5G, VoLTE, NB-IoT and satellite services.

#### Growing pressure on roaming revenues

Protect margins with competitive retail offers as new entrants capture a growing share of roaming traffic.

#### Increasing customer demand for roaming quality & speed

Premium roaming requires proactive roaming testing and ongoing QoS monitoring.

#### Limited roaming expertise and resources

Scarce commercial and technical expertise makes roaming operations difficult to scale efficiently.

### Turning roaming challenges into business results

A comprehensive Managed Roaming Services portfolio to help you:

#### Accelerate the deployment of your new services

Leverage BICS expert resources to launch new roaming services faster, from partner engagement to commercial go-live, and compete with confidence.

#### Provide superior roaming experience

Deliver consistent QoS only across roaming partners (and affiliates) through proactive quality management.

#### Increase roaming profitability

Strengthen commercial performance through expert IOT negotiations & Leverage long-term strategic community of trustworthy RPs for strong market positioning

#### Facilitate end-to-end financial control

Reduce revenue leakage with complete visibility across the roaming financial lifecycle.

#### Scale roaming without scaling teams

Extend your roaming team with cross-functional roaming.

## How BICS delivers

### TECHNICAL

#### Footprint management

Accelerate inbound and outbound roaming launches with partner engagement, IREG/TADIG testing and commercial launch.

#### Proactive roaming quality management

Continuously monitor roaming quality through testing, VIP monitoring and accelerated issue resolution.

#### Network accuracy

Improve network accuracy through configuration audits and automated IR.21 management.

### BUSINESS

#### Roaming business alliance

Increase profitability with strategic commercial insights and expert IOT negotiations.

#### End-to-end financial management

Improve cash flow through TAP reconciliation, dispute management, and settlement.

## Why BICS

#### 20+ years of trust and proven expertise

Accelerate service launches, improve network accuracy, and simplify roaming operations with specialists.

#### A trustworthy promise for end-to-end ownership

One accountable partner managing your roaming lifecycle from deployment to financial settlement.

#### A long term strategic & neutral partnership

An extension of your team with operational and executive governance aligned to your business goals.

#### A truly global reach

Supporting operators across 180+ countries with regional expertise and one of the world's largest roaming footprints.

## Let BICS run your roaming. You focus on growth.

An extension of your team, helping accelerate innovation, improving customer experience, and maximizing roaming profitability.
